Dear
Habib Adjie,

Based on Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it. (Manuscript Number: 1435)

Please follow the following revision instructions:.

Reviewer 1

Abstract must be made in a solid, consisting of all essential things related to the written topic, not repeating the conclusions of the research you have done.

The discussion section must be deepened, the author must link the topics discussed with previous references.

In this The related literature seems missing with important/significant research, including (but not limited to).

Conclusions must be brief and clear explaining the core research findings.

Reviewer 2

I was hopeful that this article would be readily usable though the English in parts is so low that reading is challenging. The topic is of great importance.

Good Luck!

Best regards,

Editor
